The Cancer Association of Havasu, under the direction of the Havasu Community Health Foundation, is a group of local volunteers and staff who are deeply committed to cancer programs in the Lake Havasu City community.

Our focus is providing low-cost cancer screening, education, and support for cancer patients and families.

Our primary purpose is to use the money raised in Lake Havasu City to benefit residents experiencing cancer-related needs while demonstrating our unwavering commitment to the community.

The Cancer Association firmly believes early detection is the key to receiving the best treatment for a favorable outcome, and we are dedicated to providing these crucial services to the community.
